September 2011

Greetings one and all!

My name is Virginia Weathers and I am the new library liaison to the College of Engineering and Computing. I hope to make you and your students the most library literate group on campus if you aren't already. The library is constantly improving, and it is hard to keep up. That's where I come in. This newsletter and my emails are attempts to keep you informed.

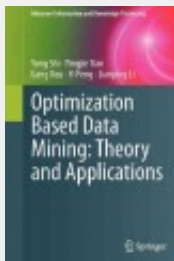

Please do not hesitate to call me if you have questions about the library. In the meantime, check our new website <http://library.sc.edu> and our LibGuides for your area <http://guides.library.sc.edu>. I have inherited the guides, and I would like to know what you think will make them more helpful. I can see from the statistics that Computing and Biomedical Engineering are heavy users, while other CEC areas are not using them very much.

Andrea Jarratt, your former liaison, is still with us and will assist me this academic year. I look forward to working with you and your students.

Best wishes for a great fall semester,

Virginia Weathers

Library Instruction Available

We provide instruction to meet the varying needs of you and your students. Are you interested in a general library introduction or hands-on instruction? [Read more](#) about how our librarians can help.

Scan and Deliver - Let us get that for you

Through your [Interlibrary Loan account](#) request that copies of journal articles or book chapters held in print in the libraries be delivered to your email account. This service is free of charge for USC faculty, staff, and students at any USC campus.

For more information see the [Scan and Deliver Policies](#).

Talk to us...
